HOW TO USE AND MAINTAIN PRIVATE DRY TOILET

OH...HI!

THIS IS A URINE-DIVERTING, COMPOSTING DRY TOILET!

FOLLOW MY INSTRUCTIONS CAREFULLY, AND GET THE MOST OUT OF IT. IT’S REALLY INGENIOUS INVENTION!

URINE IS DIVERTED THROUGH URINE PIPE INTO A CONTAINER.

FAECAL MATERIAL DROPS TO A CHAMBER BELOW.

NOTICE: PUT ONLY FAECES, WIPING PAPER AND BULKING MATERIAL IN DRY TOILET!

Diapers, sanitary pads...
Plastic...
Chemicals...
Cigarettes...
Et cetera...

MAKE SURE THAT YOU USE THE TOILET CORRECTLY:
NO WATER OR URINE INTO THE FAECAL HOLE!

SLAB (WASHER INTERFACE)

URINE HOLE
FAECAL HOLE
CLEANSING HOLE

ADD ONE CUP OF BULKING MATERIAL AFTER EVERY USE.

YOU CAN USE FOR EXAMPLE:
Saw dust, chopped grass, dry leaves, small branches...

TAKE CARE THAT THE TOILET IS CLEAN AFTER YOUR VISIT!

CLEAN WITH BRUSH WHEN NECESSARY.

WASH URINE HOLE WITH WATER WHEN NECESSARY, AND WITH VINEGAR ONCE A MONTH.

NEVER USE CHEMICALS FOR CLEANING!

CLEAN THE TOILET REGULARLY!

IF THE PILE BUILDS UP TOO HIGH...

...USE A STICK OR MANURE FORK TO PUSH IT BACK DOWN.

MAKE SURE THAT EVERYTHING FUNCTIONS.

CHECK:
URINE PIPE, VENTILATION PIPE AND FLY SCREEN.

AND LAST: DON’T FORGET TO WASH YOUR HANDS!
